

# Soluna™ Roller Shades

## Product Care Instructions

Soluna™ Roller shades are designed for sustainability. Occasional dusting is still recommended as it will help maintain the beauty of your shade. Here are the proper methods for cleaning Roller Shades.

### Dusting:

- Use a duster to remove any light dust
- Use a vacuum with a soft brush attachment or a handheld vacuum to remove dust and debris

### Spot cleaning:

- Roller Fabrics cannot be dampened or spot cleaned. Water will damage the fabric.
- Solar Screens can be spot cleaned with a damp cloth. If necessary, a mild detergent can be used and must be rinsed out thoroughly. Always allow the shade to dry completely in a lowered position before operating.

### Iron/Steam:

- Do not iron roller shade fabrics.
- If wrinkles develop, a garment steamer can be used on the select roller shade fabrics listed below:

Fabric Type	Collection Name	Garment Steamer Can Be Used
